

# SAVE THE DATE: JUNE 28<sup>TH</sup> 2017

## Workshop on "Aligning Education with Innovation"

**Date** June 28th 2017  
**Time** 14:00 – 18:00  
**Location** LASER World of PHOTONICS Congress,  
Munich, Germany  
**Room** B12

### Listen to and discuss with

- Industry representatives
- Innovation experts from academia
- Representatives from EU educational programmes

### About

- What actions and measures are necessary to align education with innovation
- How can universities and industry better collaborate to trigger innovation

### After the presentations

- Networking with beer and snacks
- Matchmaking opportunity for job/internship seekers and companies!

This workshop is organised in the framework of the EU Horizon 2020 project "RespiceSME" ([www.respice-sme.eu](http://www.respice-sme.eu)) and the Photonics Public Private Partnership (Photonics21 - [www.photonics21.org](http://www.photonics21.org)).

PHOTONICS PUBLIC PRIVATE PARTNERSHIP

The objective of the RespiceSME project is to reinforce the innovative capacity of Europe's photonics Small and Medium Enterprises (SMEs), clusters and national platforms by stimulating targeted collaborations in and beyond photonics.
