

Exhibition and Sponsoring

Optics and Photonics in Sweden (OPS) 2017

18 and 19 October 2017

Electrum, Kista, Stockholm

Invited talks will cover a variety of topics in Optics and Photonics, reflecting current Swedish research and development at universities, institutes and industry. Keynote-speakers will highlight European and Swedish research and developments.

A poster session will provide an additional opportunity to display to the most recent developments and achievements. It will also give an overview of Optics and Photonics in Sweden and offer a good platform for creating new collaborations.

An **exhibition** and a session with **industry talks** will be held parallel to the technical sessions to provide industry, institutes and associations an opportunity to display their products and services and bridge the gap between science and industry.

The conference is organised by PhotonicSweden (PS) and the Swedish Optical Society (SOS).

In cooperation with:

Matchmaking

We will arrange matchmaking between companies and job seekers at the conference Optics and Photonics in Sweden 2017 at Electrum, Kista, Stockholm. It will take place on 19th of October and interested companies can get 20 minutes slots to meet interested candidates. We have a private room where the discussions can take place and a pin board where the jobseekers mark their time.

If you are interested let us know beforehand, no later than 2nd October by sending a note to Petra Bindig (petra@photonicsweden.org)

The service is free for all participating companies and attendees.

More information on the conference can be found at www.photonicsweden.org where the full program is available.
