Deep Tech Atelier

We would be delighted for you to join the fifth annual **Deep Tech Atelier** conference held in Riga, Latvia, on 20 – 21 April 2023.

The Baltics' largest deep tech industry event brings together entrepreneurs, scientists and technology developers, investors, government, and public organizations. The two-day conference offers outstanding international speakers, pitch sessions, a large EXPO zone, and excellent networking opportunities at B2B sessions between startups, investors, and the industry.

For more information, please visit <https://deeptechatelier.com/>

European Space Agency (ESA) Days

For the second year – **European Space Agency (ESA) Days** event will also be part of DTA, on 20 – 21 April 2023.

Nordic Optics and Photonics Conference (NOP-2023)

Among other activities, this year DTA will host the **Nordic Optics and Photonics (NOP-2023)** Conference with the main focus on **quantum, optical fiber, sensors, and imaging**, on 19 – 21 April 2023. To participate in NOP side events on 19th of April, please contact Zane Cerpakovska: Zane.Cerpakovska@liao.gov.lv .

Nordic Photonics & Electronics Forum (as part of NOP-2023)

The representative office of Investment and Development Agency of Latvia (LIAA) in Sweden is looking for a partner who can identify, approach and attract Nordic, and especially Swedish photonics and electronics companies. The aim is to promote the photonics and electronics sectors in Latvia; to establish connection between Nordic (focus on Swedish) and Latvian companies with the goal of cooperation; exploring Latvia as a business location for investment. It will be held in Riga during 19-21 April. More info will come.

Exhibition at NOP-2023 & DTA

Companies who wish to participate with their exhibition stand, need to fill in this questionnaire: <https://forms.gle/FfnmeeC5Ujm6mmSo9> .

For registered and approved companies, the exhibition cost will be covered by LIAA.
