

ECLIPSE

Eclipse optics is an optical design house in Stockholm, Sweden. We provide optical solutions for our customers, including design, sourcing, system integration and design, metrology and concept innovation. We work mainly in automotive and medical devices, but also consumer electronics, energy and industrial applications. Our team of experts work with interesting international customers to provide innovative solutions in optics for the future.

We are now looking for a passionate optics designer who understands optical systems and likes to collaborate with colleagues to achieve goals. Merited technical experience includes:

- Zemax or Lighttools
- AR/VR
- LiDAR
- Head-up displays
- Microscopy
- Projectors
