PhotonHub Europe – How photonics can help your innovation

Lennart B.M. Svensson, PhotonicSweden

Photon Hub is a pan-European photonics digital innovation hub to help SMEs and mid-caps become highly competitive digital businesses through faster and smarter deployment of photonics-based technologies. PhotonHub can assist in many different application domains, such as healthcare, digital infrastructure, manufacturing, safety, security, space, defence, agri-food, mobility and energy.

Business Sweden – How we help Swedish companies grow global sales and international companies invest and expand in Sweden

Michail Pagounis, Program Manager - Business Ecosystem Smart Industry & New Materials, Business Sweden

Business Sweden has recently started working with the semiconductor industry in Sweden, an industry in need of internationalization, strategic capital, strong partnerships, and promotion. During this session, we will go through how Business Sweden is supporting the development and promotion of a value chain and draw parallels to the Photonics industry.

Specialty optical fibers – why and how?

Åsa Claesson, Senior researcher at RISE and Fiberlab in Hudiksvall

A specialty optical fiber is like a telecom fiber, but better. Why would you use them and how are they made? The presentation describes the specialty fiber area with focus on industrial sensing.

Fiber optic sensing in industrial applications

Erik Zetterlund, Unit Manager, Fiberoptics & Photonics at RISE in Kista

Short introduction to fiber optic sensing and some examples on how RISE Fiber optics have implemented and evaluated the technology expertise for a wide variety of industrial applications.
