

Photonics West 2021:

Digital Marketplace & 2021 Digital Forum, 6-11 March 2021

It is free to attend the Digital Marketplace, but registration is required for both visitors and company representatives.

Only one registration is needed per person, either the free **Digital Marketplace** and industry session registration or a paid **Digital Forum** conference registration (which includes Digital Marketplace access).

All 2021 Photonics West registrations include access to the Digital Marketplace to view company listings, watch videos and demonstrations, live chat with company representatives, and more.

<https://spie.org/conferences-and-exhibitions/photonics-west/photonics-west-marketplace>

This event will be held online 6-11 March 2021

Find the best solutions, components, instruments, and system providers from around the world at the Photonics West Digital Marketplace. Companies will be available during the Digital Forum to offer you an inside look into their portfolio of products and services — watch product demonstrations, connect in one-on-one conversations with company representatives, and find partnerships that will advance your work.

Check back for Marketplace details in the coming weeks. Registration is free for the Digital Marketplace and industry sessions.

This event will be held online 6-11 March 2021

Attend the Photonics West Digital Forum, the premier laser, photonics, biomedical optics event. SPIE Photonics West covers a wide range of topics: biomedical optics, biophotonics, industrial lasers, optoelectronics, microfabrication, MOEMS-MEMS, displays, and more.

The digital forum will offer live plenary talks, on-demand technical presentations and discussions, online networking and special events, and a digital marketplace with product demonstrations and the ability to make business connections.

We hope to see you online in March.
